**U.S. Manufacturer of Innovative Textile and
Microfiber Cleaning Products and Programs
- Cleaning the World Since 1923.**

Innovative Cleaning Systems Designed With a Persons Body In Mind

...1923

tu way

Our Story

Made in the USA, and founded in Detroit in 1923, Tuway was created by an entrepreneur and innovator named Otto Schaefer when he saw an opportunity to make cleaning products for the booming U.S. economy. Relocated to Rockford, OH in the 1940s we continued our growth led by entrepreneurs.

An early Tuway product display, circa 1936

Quality Tools for Quality Cleaning

...1968

TUWAY
AMERICAN
GROUP

Everybody is familiar with flat mops now but Tuway was the first to bring them out in the 1970s under the Zipline brand. Another innovation was the disposable dust mop system called the Mod 40 that allowed customers to simply custom cut to any frame length from a roll.

...1996

TUWAY
TUWAY AMERICAN GROUP

Since 1983 we have continued the tradition of innovation and entrepreneurship today led by the Koester family. In 1985 and 1987 we acquired American Standard and American Textile, respectively. In 1987 Tuway was one of the first companies to adopt microfiber as a cleaning textile.

...2011

Tuway
AMERICAN GROUP

Microfiber wasn't our only innovation, our manufacturing has been at the top as well. Lean processes and focusing on our people are key to being able to deliver value to our customers. Our manufacturing partners are a key reason we've been successful for 100 years.

...2017

TUWAY

Looking into the next 100 years, we see Tuway evolving beyond being a powerful manufacturer of products to a trusted partner with our customers-providing solutions incorporating textiles, tools, and software. Cleaning is evolving and so is Tuway.

The 716 includes a frame and 54" wooden handle. Ideal for our wall wash pads!

General Purpose Cleaning

Surface Cleaning - Sponge Cloth - Conventional - Disposable

Every day, we throw away 6 million (3 tons) of paper towels in the United States. It takes 17 trees and 20,000 gallons of water to manufacture one ton of paper towel. If you consider our daily consumption of 3,000 tons of paper towel, it takes 51,000 trees and 60 million gallons of water, per day, for a product we use for a couple of seconds and then discard.

- Dispenses and works like paper towel
- One roll replaces 15 rolls of paper towel
- Roll contains 16 sheets
- Absorbs 10 times its weight
- Removes more bacteria from surfaces than microfiber
- Biodegradable and environmentally friendly

The Sponge Cloth is the perfect choice where absorbency matters!

Part Number	Description	Cs Qty	Size	Cs Wt
KC-ROLL	Sponge Cloth	16 Rolls	9.5" x 9.8"	

Applicator Pad - Microfiber - Launderable

Highly versatile applicator pad makes applying wax, polish and finish easy and efficient. The blue microfiber sponge filled pad is a perfect addition to any cost saving cleaning system.

- Microfiber with foam insert - 80/20 yarn blend
- General use applications
- Dual sided
- Leaves no streaks and is lint free
- Combines low price and quality construction
- Size: 4" x 5" x 1"
- Competitor cross references: CPI-MSPONGE

How to Choose the Right Dust Mop

Proper dust mopping is the easiest, most productive way to preserve the appearance and longevity of floor finishes, while lowering overall floor care costs.

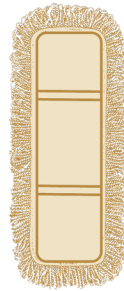

Tuway offers a wide variety of dust mops to assist in the efficient removal of dust, grit and dirt. The following information can help you in choosing the right dust mop for your needs.

Yarn

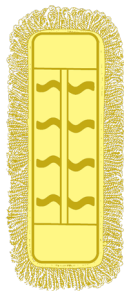

Cotton is the most popular and economical dust mop yarn. Cotton is often blended with synthetic fibers to add strength. Some of these yarns are designed to withstand laundering. Because they don't require laundering, disposable dust mops are made with bulky, loosely twisted yarn that actually picks up

dust better. Our launderable Loopmaster cotton yarn combines exceptional durability with outstanding dust pick-up. Our Astrolan™ yarn has electro-static properties that attract dust particles without the use of treatment.

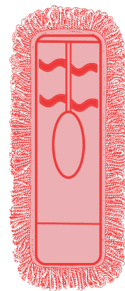

Backing Styles

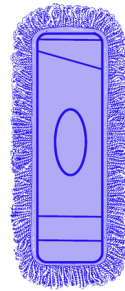

Break-Away

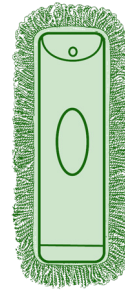

Open Back with Ties

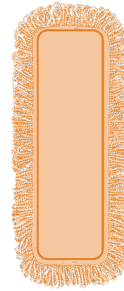

Key Hole with Ties

Slant Slip

Envelope with Snap

Velcro® (Zipline Only)

Backing Material

Synthetic backing material dries much faster and absorbs less treatment than cotton. We offer a variety of backing styles including: Break-Away, Open Back, Keyhole, Slant Slip and Envelope (illustrated above). Choose from easy-to-use ties or

optional chrome-plated snaps. Backing colors include: red, yellow, orange, blue, green and white. Our unique Zipline™ system incorporates a special Velcro style backing that secures the mop head instantly and effortlessly.

Cut-End

The cut-end dust mop, though more economical at first, tends to fray unravel and lint. These problems decrease its performance and lead to replacement of the mop. These

problems are intensified by laundering. Our Loopmaster™ yarn solves this problem by looping and twisting the yarn fibers.

Looped-End

By trapping more dust, producing less lint, and resisting tangles, the looped-end dust mop delivers maximum performance. Because looped-end yarns withstand heavy use

and frequent laundering without unraveling, linting is virtually eliminated. Lopped-end yarn is available in long loops for maximum coverage or short loops for health care and specialty applications.

Durability

High quality construction standards produce the best dust mop value. Reinforced stitching at stress points is a sign of better mop construction, innovative yarns, like our Tennessee™,

Astrolan™ and Loopmaster™ can provide both longer service and improved performance.

Size

The longer a dust mop, the more area it can cover in a single pass. A 5" dust mop remains effective longer before unloading, than a 3-1/4" dust mop. However, dust mop size is also

dependent on obstructions and area size. A narrower, shorter dust mop is far easier to handle and reaches into places where longer dust mops can't.

Dust Mopping

Dust Head - Wedge Mop - Conventional - Launderable

Great for use in tight areas, such as classrooms or offices. Lies flat for easy under furniture access. Mop heads are easily removable and launderable. Refill mop heads allow for fast and easy changes.

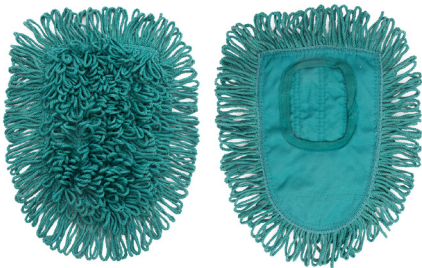

- 4 ply, cut end, 100% cotton yarn
- 100% polyester backing
- Yarn spread 12" x 17"
- Fits Tuway's 1010 wedge mop frame and handle
- 0 to 20 washings depending upon consistency of laundry process in relation to Tuway's laundry specifications
- Competitor cross references: Golden Star-Wedge Mop, O'Dell-Triangle Dust Mop, Rubbermaid-Kut-A-Way Wedge Mop, Wilen-Triangle Dust Mop C501000

Dust Mopping

Dust Sheet - ECO System - Microfiber - Disposable

Eco Mop is a low-cost, high performance disposable dust mopping system. The Eco Mop fibers contain an electrostatic charge and draw dust and dirt particles into the dusting sheet during the cleaning process. Ideal for use in hospitals, health care facilities, schools and offices.

- Our highest rated disposable microfiber
- Polyethylene from recycled plastic
- When incinerated produces CO2 and H2O
- Picks up fine/light dust or debris
- Available in ECOMOP-BOX 200 per case, ECOMOP-REEL with 4 reels at 100 sheets per reel
- Use with Tuway's ECO frames and aluminum handle
- 70% recycled material and 30% renewable material
- Competitor cross references: 3M-Easy Trap, Wilen-E42900 Charger

Dust Mopping

Dust Pad - Microfiber - Launderable

With the microfiber split-fiber technology, these pads are the perfect tool for dusting applications. With these pads there is no linting. Fringe edges provide additional cleaning along baseboards and hidden areas.

- Microfiber/Acrylic – 70/30 yarn blend – wrap knitted weave
- Nylon loop Velcro backing (ties available on special request to use with wire frames)
- Microfiber material inhibits airborne dust distribution in mopping process
- Lengths: 18", 24", 36", 48" or 60" – Width: 5"
- Use with Tuway's aluminum frames with Velcro
- Competitor cross references: CPI-TIGERHOOK, Impact - LFFD/3168, Rubbermaid - Q408

Dust Mopping

Dust Pad - Zipline II® Conventional - Launderable

This advanced designed dust mop provides an engineered balance of dust pick up and launderability. Short cut center yarn puts more yarn ends on the floor, and resists tangling during laundering. Velcro backing allows for easy attachment to frame – No ties, no snaps, easy assembly.

- 4 ply, cut end, 100% cotton yarn - available in natural yarn
- 100% polyester backing with Velcro
- Available in sizes from 12" to 72" to fit Zipline frames.
- Light washing (0 to 20) depending on consistency of laundry processing in relation to Tuway's laundry specifications - Four rows of yarn for extra dirt collection
- Competitor cross references: N/A

Dust Mopping

Dust Head - Zipline II® Hospital - Conventional - Launderable

This low profile looped end dust mop is as durable as it is versatile. 4 ply tufted cotton yarn formed into short loops provide excellent daily cleaning and withstands multiple launderings. Velcro backing allows for easy attachment to frame – No ties, no snaps, easy assembly.

- 4 ply, looped end, 100% cotton yarn - available in natural yarn
- 100% polyester backing with Velcro - Dense, looped construction minimizes linting - Excellent for dust or damp mopping
- Available in sizes from 12" to 72" to fit Zipline frames
- Light washing (0 to 20) depending on consistency of laundry processing in relation to Tuway's laundry specifications
- Competitor cross references: N/A

Dust Mopping

Dust Mop - Tennessee Loop - Conventional - Launderable

Specially designed for institutional applications, its looped ends prevent deplying, linting and fraying for maximum service life. Bulker, loosely twisted yarn is an efficient trap for better dust collection and retention.

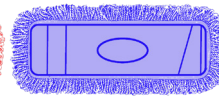

- 4 ply, looped end, 100% cotton yarn
- 100% polyester backing
- Yarn and backing colors available in Red, Yellow, Blue, Green and Natural
- Standard is blue yarn and backing. Standard backing is keyhole with ties
- 5" width in lengths from 12" to 72"
- 100 to 120 washings depending on consistency of laundry processing in relation to Tuway laundry specifications.

Dust Mopping

Dust Mop - Loopmaster - Microfiber - Launderable

Traditional looped end microfiber dust mop makes mopping easy and efficient. Lightweight and super absorbent, these durable launderable mops offer superior cleaning and lint free dusting. Ideal for use anywhere a conventional looped dust mop is used. Velcro backing allows for easy attachment to frame – No ties, no snaps, easy assembly.

- Our highest rated microfiber dust mop
- Microfiber – 80/20 yarn blend – twisted loop weave
- Polyester slant slip backing
- Conventional dust mop style – combined with microfiber cleaning performance
- Premium pickup
- Dust-Loc is not required
- Microfiber material inhibits airborne dust distribution in mopping process
- Lengths: 18”, 24”, 36”, 48” or 60” – Width: 5”
- Use Tuway’s conventional dust mop frames and handles
- Competitor cross references: CPI-MDust (Green), Golden Star-Fusion, Impact-3191 (Green), Rubbermaid-J852 (Green), Wilen-C090018

Dust Mopping

Dust Mop - Astrolan II™ - Microfiber - Launderable

This dust mop's electrostatic properties act like a dust magnet, picking up and holding dust without treatment. Provides better dust collection than untreated cotton dust mops. Ideal for use in chemical sensitive areas, such as laboratories and hospitals. Yarn is extremely durable and won't lint or fray, even after many launderings.

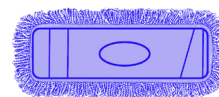

- 2 ply, cut end, 100% nylon yarn
- 100% polyester backing. Only available in blue yarn with blue backing. Standard backing is keyhole with ties
- Available in 5" and 3 1/4" widths and in lengths from 12" to 72"
- 100 to 150 washings depending upon consistency of laundry process in relation to Tuway's laundry specifications
- Competitor cross references: Golden Star-Staran Dust Mop, O'Dell-Clinger Magnetic, Rubbermaid-Superstat Loop Dust Mop, Wilen-Durastat Dust Mop

Dust Mopping - Tools

Scuff Ace - Conventional - Tools

The Scuff Ace product is used to clean marks from most hard floor surfaces. The unique and functional snap on/off clip design allows for the Scuff Ace to be attached to any standard dust mop handle.

- Clip-on handle easily attaches to any standard dust handle
- No more bending or stooping to clean scuff marks
- Easily fits any cleaning cart
- Lightweight, easy to use. Durable construction
- Replaceable scrub heads for easy changes

Damp Mopping

Damp Pad - Microfiber - Launderable

Excellent for damp mopping, these launderable pads are perfect for quick and efficient cleaning. Microfiber's state of the art design allows for improved absorbency and superior pick-up. Microfiber mechanically picks up surface debris and it reduces bacteria by 98% compared to traditional mops.

- Microfiber/Polyester – 80/20 blend – wrap knitted weave
- Nylon loop Velcro backing
- Foam insert for improved absorbency
- Industry's standard damp pad
- Lengths: 12" - 48"
- 18" Pads can also be used the with ZL Trowel
- Use with Tuway's aluminum frames with Velcro and aluminum handles
- Competitor cross references: Golden Star-40WET/Micromop, Impact-3171/ LFWM18, Rubbermaid-Q410, Wilen-C103020 Super Pro II

How to Choose the Right Wet Mop

The Tuway family of wet mops includes a variety of yarns, headbands and construction styles. To choose wisely, just follow this simple three-step process:

1. Determine cleaning task(s) you want the mop to perform.
2. Review available yarn types and mop construction characteristics.
3. Select the mop that best matches your application.

Yarn

Certain yarns are better suited to a specific cleaning task than others. To get maximum efficiency and value from a wet mop, it's important to select the right yarn for the job.

Yarn Ply

Yarn ply indicates the number of strands twisted together to make a single piece of yarn. More plies provide greater strength, though higher ply numbers are not a good predictor of higher

yarn quality. A higher-quality, low-ply yarn is invariably better performing and more cost effective than a lower-quality, high-ply yarn.

Twist

"Twist" refers to how tightly individual yarn strands are wound together. While a tightly twisted yarn might be stronger and

more durable, absorbency may suffer. Twist can be judged only in combination with yarn quality and mop construction.

Styles

Cut-end mops are generally lowest in initial cost. Over time, cut-end mops fray and unravel, creating lint and leaving loose strands behind. In addition, cut-end mops leave gaps between yarn strands and have limited "spread", thus covering less area per pass. Some models have tailbands, which reduce these shortcomings. Since cut-end mops should not be laundered, their useful life is limited.

With looped-end mops there are no cut ends to fray or unravel. A special tailband assures wide, gap-free "spread" for maximum productivity. Tailband also eliminates yarn tangling and snagging. Since looped-end mops can be laundered and reused over and over, they last far longer than cut-end mops.

Size

Mop size should be matched to cleaning task, mop wringer and user size. (Remember, premium-grade mops hold up to five times their weight in water.) In open areas, larger size mops are

generally more efficient. In confined or obstructed spaces, smaller mops may be more maneuverable and easier to use.

Headbands

1-1/4" headbands are designed for use with slide-on or thread-through style handles. They are well suited for laying finish or applying disinfectants. 5" headbands are particularly suited to

clamp-style handles. The synthetic mesh material permits nonabrasive scrubbing to help dislodge dirt.

Damp/Wet Mopping

Wet Mop - Tube Mop - Microfiber - Launderable

Lightweight, super absorbent, these durable, launderable looped mops are made of microfiber tube-like loops. They have a wide durable mesh headband and single stitched tailband.

- Microfiber – 80/20 yarn blend – circular knitted weave - tube
- Single stitched tailband
- Extremely absorbent
- Looped fringe improves pickup of large dust and debris
- Sizes: 26 strand (SM), 30 strand (MED) or 30 strand long (LG)
- Headband available in 5" standard mesh or 5" abrasive mesh
- Use with Tuway's conventional wet mop handles
- Competitor cross references: CPI-SMARTMOP (White), Golden Star-RELINT-LESS, Impact-3176, Rubbermaid-Q852/Q853, Wilen-E224100

Syn Track Mop*

Damp/Wet Mopping

Wet Mop - Micro Track - Loop End Synthetic Antimicrobial - Conventional - Launderable

This high performance launderable wet mop provides all the advantages of a looped end, tail banded construction, in a unique rayon/polyester yarn blend.

- 4 ply, looped end, polyester/rayon/blend yarn
- 1 1/4" or 5" headbands. 5" available in 100% vinyl coated mesh to add strength
- Standard headband colors for natural yarn are 12 oz. is white, 16 oz. is green, 20 oz. is white, 24 oz. is orange and 32 oz. is blue. For colored yarn, headband matches yarn color
- Faster mop drying time inhibits mold and mildew growth. Engineered with permanent antimicrobial treatment to inhibit growth of bacteria, mold, mildew and fungi on mop head
- 50 to 100 washings depending upon consistency of laundry process in relation to Tuway's laundry specifications
- Minute Man screw in style available upon request
- Orange and Yellow also available upon request
- Competitor cross references: Golden Star-Patented Barricade Looped-end, O'Dell-Looped 4200 Series, Rubbermaid-Web Foot Shrinkless Looped-end, Wilen Pro M or Super Crown Looped-end

Damp/Wet Mopping

Wet Mop - Texcel - Cut End Rayon - Conventional - Disposable

This mop is ideal for limited use applications such as spill pick up and periodic damp mopping. With its high quality 4 ply rayon/polyester yarn, Texcel rinses out faster and more completely than cotton.

- 4 ply, cut end, rayon/polyester blend yarn
- 1 1/4" and 5" headbands available
- Excellent for laying disinfectants, sealers, strippers and floor finish
- Resists mold and mildew so the mop stays fresher longer
- Long stapled yarn for long life and minimal linting
- Competitor cross references: Golden Star-Sno-White Rayon Cut-end, O'Dell-Rayon
- Premium 4 Ply, Rubbermaid-Premium Cut-end Rayon, Wilen-Textray Cut-end Rayon

Damp/Wet Mopping

Floor Rotary Cleaning Pad - Polar Pad - Microfiber - Launderable

FP-20 Two Sided Polar Pad

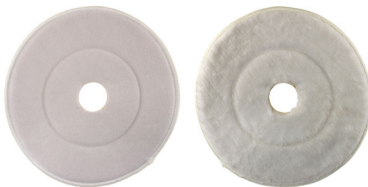

Constructed of durable, launderable microfiber, this floor pad maximizes cleaning and polishing without abrading the floor finish. Pad is ideal for daily cleaning to remove surface dirt and scuffs. Also available in a single sided version with Velcro® backing for use on high RPM floor machines.

- 100% Microfiber – 100% Polyester
- Hand rinse or launder in washing machine
- Improves indoor air quality with built in dust control
- Double sided for automatic scrubbing and damp cleaning applications
- Dimensions: 12” through 27”
- Competitor cross references: N/A

Damp Mop System - Zipline II® Bucketless Mop - Conventional/Microfiber - Tools

A self contained system perfect for applying floor finish, dust or damp mopping. Comes with gravity fed tank, push button release and microfiber mop head. This tool is also ideal for cleaning areas where conventional buckets and wringers are impractical.

- 52 oz gravity fed tank (MMS-K18 & MMS-K-24)
- 24 oz removable canister (MMS-K18JR)
- K-18 comes with 16" size frame and K-24 comes with 21" sized frame
- One damp pad is included with system
- Push button release
- MMS-K18GR is designed for mopping and applying floor finish
- Competitor cross references: Impact - BLS18/CH129, Rubbermaid - Q969
- MMS-K18 is supplied with a blue microfiber general purpose pad (MMS-18ZL), MMS-K18GR is supplied with a green microfiber finish pad (MFG18), MMS-K24 is supplied with a blue microfiber general purpose pad (MMS-21ZL), MMS-K16JR is supplied with a blue microfiber general purpose pad (MMS-21ZL)

Carpet Maintenance

Carpet Bonnet - Microfiber - Launderable

Carpet bonnets use less water and chemicals, and because they are highly absorbent carpets dry faster. They are also effective on hard-surfaced floors for 175-300 RPM buffing applications. All microfiber carpet bonnets are launderable and are available in sizes 17", 19" or 21".

- Microfiber - 80/20 yarn blend
- Double sided pad has foam insert
- High profile: double sided
- Low profile: single sided with Velcro
- Diameter size: 17", 19" or 21"
- Competitor cross references: Golden-Star - HD BONNET, Rubbermaid - Q217

Terms and Conditions

Credit: To establish credit please call our Credit Department, Customer Care Department, or your local Tuway Representative. A credit application can be found on our web site at www.tuwaymops.com.

Packaging: See specific Product Detail for standard packaging. Any order less than a case will be charged a 20% surcharge. Bar coding is available upon request.

Private Label Program: A 5-case minimum and additional cost for private label will apply. Minimum Order and Special Order Terms (see below) will apply. Please contact our Customer Care Department or your local Tuway Representative for details on our Private Label Program.

Special Orders (Manufactured or Purchased Products): Custom products are available. Customer shall be responsible for the full purchase price on any special orders changed or canceled once manufacturing has begun. Returns will not be accepted on these items. Note that non-standard products may be shipped at plus or minus 10% of order product quantity. Standard delivery times do not apply to special orders.

Add-On Orders: Every effort will be made to accommodate "Add-ons". However, any "add-on" that is not received within the first 24 hours of the initial order receipt may prolong the lead time of the order. If an "add-on" has to be shipped separately the customer will be responsible for the shipping charge.

Rocket-Ship: Rocket-Ship is an emergency shipping program for selected Tuway-brand products. Orders are guaranteed to ship within 24 hours. There are no order minimums (other than full-case quantities) and freight is prepaid anywhere in the contiguous U.S. For Hawaii, Alaska and U.S. Territories, freight will be prepaid to the U.S. border. All other terms of the Rocket-ship program apply. Rocket-Ship must be noted on all purchase orders to ensure proper order processing.

Freight: Tuway will prepay freight on \$1,900.00 or more shipped to one location within the contiguous U.S. using Tuway's preferred carrier unless otherwise stated by Tuway as FOB Rockford OH. Prepaid shipments requesting a non-preferred Tuway carrier will incur the additional freight expense.

Bid Pricing: Tuway American Group will adhere to our quoted bid pricing only when the proof of delivery to the end user, a bid number and/or any other supporting documentation verifying the pricing is being used for a school bid or government bid only. Once proper documentation is received by Tuway, the appropriate credit will be issued.

Damage and Shortage Claims: Shipment damage must be filed with the carrier on a timely basis. Any shortages must be signed for and reported within 24 hours of receipt of shipment to Tuway's Customer Care Department.

Returns: Merchandise returns apply only to Tuway-branded products. Return requests must be filed within ninety (90) days of shipment and are subject to a 25% restocking charge. Customer is also responsible for all shipping and handling charges (both ways). A Return Authorization (RA) number is required for all returns. Please contact the Customer Care Department for assistance.

Invoicing: Customer shall not take deductions from any Tuway invoice without prior approval from Tuway American Group's Customer Care Department or via. Bid/Quote Numbers must appear on ALL orders/bids.

Minimum Order: No minimum order requirement for non-private label orders as long as customer orders full case quantities and is paying the shipping charges. All private-label orders will require a \$250.00 order minimum otherwise is subject to a \$25.00 small order fee.

Payment Terms: Net 30 Days 1-1/2% per month will be charged on an open balance exceeding 30 days.

Payment Options: Credit cards are accepted, however, they are subject to a 4% processing fee.

Check Remittance: Make all remittances to:
Tuway American Group
3155 W Big Beaver Road
Suite 104
Troy MI 48084

Venue and Governing Law: Customer, by signing the purchase order attached to these terms and conditions agrees to the following provisions: a) Michigan law shall govern this transaction and any conflict of laws shall not apply; b) venue for any disputes shall be in Oakland County, Michigan; c) any dispute shall be determined by one person arbitration with a reasoned award stating findings of fact and conclusions of law and reasonable time for payment by the losing party if any as determined by the arbitrator, the costs of the prevailing party's attorney fees and the arbitrator's fee shall be borne by the against whom a decision is rendered. Either party may petition for arbitration with an appropriate service that conducts arbitrations and must give notice to the other party of its intent.

Prices and/or product offerings subject to change without notice.
Please Note: Changes or cancellations may not be available after receipt of purchase order.
