REUSABLE & RECYCLABLE CONTAINERS *TO GO*

DELI - CATERING - CAFETERIAS - RESTAURANTS - SCHOOLS - STADIUMS - HEALTHCARE - HOTELS

DESIGNING TODAY FOR A SUSTAINABLE TOMORROW

RECYCLE

The common impression is that Polypropylene is not a recyclable material versus plant based alternatives. Fact is, Polyprop is as much recyclable as other materials, it gets "upcycled" in many new products.

REUSE

Our polyprop containers are engineered to be re-usable many times over and reduce the waste pile, compared to single-use containers.
Our containers are dishwash safe and stack perfectly on a refrigerator shelve.

CUSTOMIZE

Our polyprop container are produced with ultimate flexibility for customization.
It is our aim to make it possible for all our customers to have your name on your container, and make your container a vehicle to generate repeat business for you.
